- Reg Affair (MAST) - Marketing Authorization Supply Transfer

Manufacturing and high tech

- Procurement-as-a-Service
- Returns Management and Device Repair

Finance and accounting

- Genpact AP Suite
- Genpact Record-to-Report Suite
- ARFlow

Supply chain

- Supply Connect
- Forecasting CoE
- Agentic Supply chain

Sales and commercial

- OrderAssist
- ContractAssist
- SalesAssist
- Agentic CX

Function ➤

Unleash seamless efficiency with a cutting-edge digital

➤ Agentic CX

Reimagine customer contact experiences end-to-end with AI

Deliver seamless customer experiences by uniting processes, people, and products.

- Boost net promoter scores (NPSs) by up to 15%
- Improve upselling and cross-selling to boost revenues by up to 25%
- Achieve 25% increase in first call resolution rates
- Reduce costs by up to 50%

➤ AI Maestro

Orchestrating the future of enterprise AI

AI Maestro acts as the “conductor” in a symphony of AI agents and enables seamless selection, development, training, and deployment of AI across complex enterprise environments.

- Reduce design and deployment timelines significantly
- Powering 90+ clients and 6,500+ AI builders across industries
- Built to evolve with emerging technologies and enterprise needs
- Embeds ethical AI principles, governance, and human-in-the-loop oversight

➤ Agentic Supply Chain planning

Turn your supply chain into a strategic advantage

Transforms your inventory management from reactive to proactive and turn complex challenges into clear actions

- Reduce working capital by up to 20% by eliminating excess inventory
- Improve forecast accuracy by up to 15% with predictive insights
- Enhance resilience by proactively identifying and mitigating stockout risks
- Increase agility by making faster, data-driven decisions

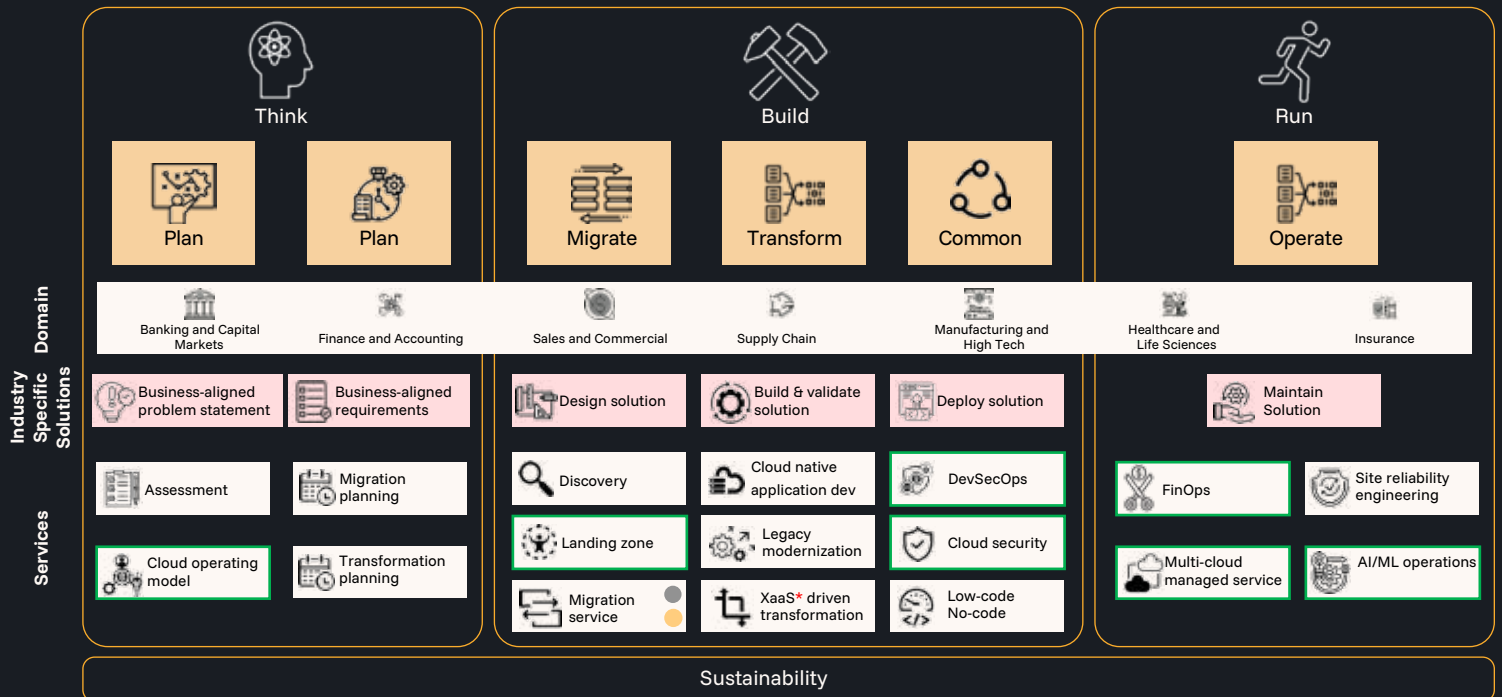

➤ riskCanvas

Built for Intelligence. Designed to Evolve.

A data-first, gen AI-enabled financial crime platform that unifies monitoring, screening, risk scoring, and case management.

- 90% alert reduction through risk-based screening model design
- 50% false positive reduction with models built in hours
- ~40% efficiency gains from automated data centralization
- ~70% total cost of ownership reduction

Our foundational capabilities help you create a roadmap for your cloud journey
