

OVERVIEW

Cora APFlow: The effortless way to automate Accounts Payable—and delight suppliers

Cora APFlow is a software solution that can cost effectively connect enterprises with their suppliers around the world. It provides firms with end-to-end visibility—and suppliers with prompt payment. The tool uses a combination of Accounts Payable (AP) automation and advanced workflow to shorten cycle times, making approval and resolution processes simpler in the bargain. It's a true cornerstone of intelligent procurement operations.

What the CORA APFlow experience offers

- Up to 40% higher productivity, with tighter control and improved compliance
- Discounts from suppliers for quick payments
- A reduction in supplier inquiry calls by 50-60%
- Dashboards and configurable reports for real-time process visibility

CORA APFlow's features:

Supplier data management

Cora APFlow automates supplier setup and maintenance end-to-end for improved accuracy, reduced cycle times, lower costs, and better controllership.

Receipt and capture

With Cora APFlow, buyers can receive, electronically capture, and upload to ERPs invoices from multiple sources. The tool then prioritizes the invoices for timely processing and payment using configurable rules.

E-invoicing

Buyers can get e-invoice feeds from leading global e-invoicing networks, making it easy to move quickly from paper-based invoices to electronic ones.

Workflow

Using mobility, built-in reminders, and escalations, Cora APFlow drives timely payments to suppliers through faster approvals and resolution.

Supplier portal

Cora APFlow provides real-time access to invoice status and payment information, so fewer calls and email inquiries come in to the AP Helpdesk. Suppliers can also download and digitally sign invoices to comply with regulatory requirements.

Discount management

By getting discounts from suppliers for early payment, Cora APFlow helps drive savings. What's more, buyers can configure and control early payment discount programs.
